

Career Opportunity

Project Management Consultant

Our project management consultants are highly schooled professionals with expertise in (enterprise) project (portfolio) management, business administration and project scheduling & control.

As a project management consultant, you will advise our clients on how to improve their project management best practices.

Your tasks:

- You will benchmark the project management practices at our clients and provide solid recommendations for improvement.
- You will develop and maintain procedures for effective project planning & control.
- You will perform (non-technical) implementations of PM tools (primarily Primavera P6 EPPM).
- You will give trainings in the domains of project management and project planning.
- You will perform powerful analyses such as Earned Value analysis, scenario analysis and schedule risk analysis for multiple large projects.

Our offer:

- A permanent contract with an attractive remuneration package, including a company car and group insurance.
- A challenging and varied job which will turn you into a renowned expert in the market.
- The opportunity to contribute as a key element to the growth of our Belgian office.
- Personal development by enrolling in our intense training program.
- A unique, transparent and rewarding career path in project controls or project management consulting.

THE IDEAL CANDIDATE

- Fits in our humane & entrepreneurial company DNA.
- Has a master degree (e.g. business or engineering). A project management certificate such as PMP is an asset.
- Has minimum 5 years of experience as a consultant or a planning engineer.
- Is experienced in MS Project or Primavera P6. Knowledge of Primavera P6 EPPM is an asset.
- Is fluent in English and in either Dutch or French.
- Is a good communicator who likes to share knowledge.
- Is flexible and eager to discover different projects and industries.

“Starting at Primaned was maybe a step outside my comfort zone, but I am very happy that I made this step”

Sonny Vandenbruaene
Project Controls Engineer since 2014

Are you that person that we are looking for to strengthen our team?
Please send your CV to Janina Verbruggen at jobs@primaned.be.
